DETAILED ACTION

Drawings

The drawings are objected to under 37 CFR 1.83(a). The drawings must show every feature of the invention specified in the claims. Therefore, the limitations of claims 5 and 10 must be shown or the feature(s) canceled from the claim(s). No new matter should be entered.

A proposed drawing correction or corrected drawings are required in reply to the Office action to avoid abandonment of the application. The objection to the drawings will not be held in abeyance.

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 1-11 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. Claim(s) 1 and 7 fail(s) to recite sufficient structural elements and interconnection of the elements to positively position and define: 1) how the first and second tops are removable and interchangeably attached to the support member (claims 1, 7); 2) how the first table top is removably and hingedly attachable to the first table top (claim 7) so that an integral structure able to function as claimed is recited. The expressions "attachable", "storable", "detachable" are indefinite. Language similar to a structure to allow for something that is removably attached and the like would provide interconnection and definiteness.

Allowable Subject Matter

Claims 1-11 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, second paragraph, set forth in this Office action.
